EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with attorney Evelyn Sommer on 10/11/2006.

The application has been amended as follows:

In claim 1,

line 11: after "said air channel" insert --, wherein said controller receiving said height of user signal so that water is delivered to said at least one misting nozzle dependence on the height of the user--.

In claim 8,

line 3: before the recitation "user" delete "a" and substitute --the--.

In claim 21,

after line 22, indent and insert --at least one height sensor generating a height of user signal--,

line 27: after "said air channel" insert --, wherein said controller receiving said height of user signal so that water is delivered to said rows of misting nozzles dependence on the height of the user--.

Claim 25 has been cancelled.

In claim 27,

Art Unit: 3751

line 3: before the recitation "user" delete "a" and substitute --the--.

In claim 37,

line 19: delete "and",

after line 19, indent and insert --at least one height sensor generating a height of user signal, and--,

line 20: delete the recitation "a height signal" and substitute --said height of user signal--.

In claim 39,

line 15: delete "and",

after line 15, indent and insert --at least one height sensor generating a height of user signal, and--,

line 19: after "said air channel" insert --, wherein said controller receiving said height of user signal so that water is delivered to said first row of misting nozzles dependence on the height of the user--.

In claim 48,

line 11: delete "and",

after line 11, indent and insert --at least one height sensor generating a height of user signal, and--,

line 16: after "said air channel" insert --, wherein said controller receiving said height of user signal so that water is delivered to said rows of misting nozzles dependence on the height of the user--.

In claim 49,

Art Unit: 3751

line 9: delete "and",

after line 9, indent and insert --at least one height sensor generating a height of user signal, and--,

line 12: after "said air channel" insert --, wherein said controller receiving said height of user signal so that water is delivered to said rows of misting nozzles dependence on the height of the user--.

2. Claims 1-5, 7, 8, 10-13, 15-24, 26-32 and 37-49 are allowed over the prior art of record.

3. The following is an examiner's statement of reasons for allowance: none of the cited prior art teaches a shower system having, in conjunction with other limitations, the height sensor generating a height of user signal, and the controller that receives the height of user signal so that water is delivered to the misting nozzles dependence on the height of the user as claimed.

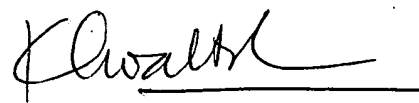

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
